**Corcovado National Park**

**One of the most biodiverse locations in CR**

**Outstanding Natural Resources**

- **375 bird species:** The biggest population of scarlet macaws in the country
- **124 mammal species:** Bat, puma, tapir, pecari, pecari tajacu, agouti, all 4 monkey species of Costa Rica and anteater
- **40 species of fresh water fish**
- **8,000 insect species**
- **71 amphibian species**
- **46 especies de anfibios**

**Main Attractions**

**Trails**
- Long distance adventure trailing: Routes Leona-Sirena 16 km, Pato-Sirena 25 km and vice versa
- Walks through the forest.

**Flora and Fauna Watching**
- Large and medium-size mammals, such as the tapir (Tapirus bairdii), coatimundi (Nasua narica), Northern anteater (Tamandua Mexicana), some felines, such as the Tigras, Ocelot, and Puma among others.
- There is a great amount of migratory birds, reptiles and insects. Bull sharks can be found in the mouth of the Sirena River when the tide is high, in addition to crocodiles of great size.

**Llorona Beach**
- Trail of 7 km (4.34 mi) from the San Pedrillo station (only when the tide is low)
- Stone arch and waterfall.
- Bathing in the sea is not allowed, due to the strong currents.

**Rivers and Waterfalls**
- Waterfalls located at Los Patos station and San Pedrillo station.
- Rivers such as Madrigal in La Leona, as well as Claras River and Sirena River at the station it is named after.

**Overnight Stays**
- It is possible to camp in the park for a minimum of one night and a maximum of four at the Sirena and San Pedrillo stations.
